County Blood Program Eyed

Discussions of the possibility of a Red Cross blood program in Crawford County have been held, and included in this year's fund drive goal of \$1,971.00 is the amount necessary to promote such a project. There are many problems to be ironed out before such a program is feasible.

The advantage of a county blood program is that no matter where a person from Crawford County may be in the United States, Canada or Mexico, he could draw needed blood and pay only the administering fee.

Dr. Joseph Venier of the Red Cross Blood Bank in Lansing is to meet with Mercy Hospital administrators to further discuss the blood program.

To date \$474.49 have been collected in the current Red Cross drive. Derek McEvers, Grayling business district chairman, reports \$315.00 collected with five out of nineteen volunteers yet to be heard from.

Mrs. Clayton Hildebrand, Grayling residential district chairman, reports collections of \$134.49 with two out of twenty-one workers to report. Two workers did not collect from their areas. Mrs. John Rolfe is a new helper in the residential district who was not previously mentioned.

Mrs. Ben Garland has turned in \$25. collected from residents in Beaver Creek east of US-27.

Jess Skinner reports that the drive is going very well in Frederic and he expects to finish up in Maple Forest this week and will have a report next week.

Avalanche Editorial In Congressional Record

The editorial which appeared in the Crawford County Avalanche in the issue of Oct. 3, 1963, was read into the Congressional Record in Washington, D. C., by the Honorable Don L. Short, member of the House of Representatives from North Dakota.

In his remarks prefacing the reading into the Record of the editorial itself, Congressman Short stated: "Mr. Speaker, from time to time the subject of Medicare for the aged has been revived. At this time, we Members know that the King bill, H. R. 3920, is before the Ways and Means Committee, with no action scheduled. From all reports, the administration plans to renew the bid for Medicare in 1964, rather than to push for its enactment this year. The fact that there seems to be a deep silence over the land as far as the usual or normal public statements on Medicare from its supporters, would lend credence to the belief that this is indeed legislation which will be pulled out in an election year, to drum up emotional support; that is, support not based on facts."

Recently I read an editorial which appeared in the Crawford County Avalanche, Grayling, Mich., of Thursday, Oct. 3, 1963. I feel this editorial is a fine summary of the situation as it stands today, and it is worthy of congressional attention, as well as the attention of the general public. Certainly it bears out my feelings on the subject, as well as the majority of my constituents.

I would like to include this editorial with my remarks in the Appendix of the Congressional Record today.

Three Fined, Jailed On Larceny Charge

Three Detroit men were arrested last Saturday by the Michigan State Police north of Grayling and charged with larceny by trick. The trio were apprehended after complaints were made from several Grayling service stations where the men had short changed attendants with the "fast talk" money changing scheme.

The three appeared before Justice of the Peace Olin Williamson on Monday and entered pleas of guilty as charged with the misdemeanor. The trio are: Lee Bentley, 30, James Wessell, 31, and David Rodgers, 48, all of Detroit.

Justice Williamson fined each man \$100 with costs of \$15 and a 30-day stay in the county jail. All three were ordered to serve an additional 60 days if the fines and costs were not paid.

July 4th Plans Receive Support

The Fourth of July celebration plans being promoted by the Grayling Fire Dept. are meeting with support from service organizations and individuals contacted so far. The Kiwanis Club has expressed its enthusiasm for the program, and is considering sponsoring a barbecue chicken dinner in the evening. The American Legion Post 106 has also been contacted, and they are going to handle parts of the carnival planned for small children, and possibly the parade.

The first honorary Fire Chief will be named by the Fire Dept. on Monday, Nov. 11, and will receive, besides his badge of office, a rifle. Starting last week, the Fire Dept. was promoting the distribution of three Thanksgiving dinners, which will include dressing, cranberry sauce, squash, potatoes, peas or corn, rolls and either ice cream or pie for dessert. One dinner will feature ham, another turkey and the third two chickens as the main course.

Fire Dept. men are enlisting the aid of their children in requesting donations for this Fourth of July celebration, such children will be wearing badges provided by their fathers whenever they make house calls.

Notice of those who will receive Thanksgiving dinner will be given by Nov. 22 or 23, following the drawing of their names on Nov. 22.

78 Year Old Home Leaving Original Site

Delbert Case has purchased the former Einer Rasmussen home at 403 Cedar St. from Chief Shoppensons Motor Hotel and is tearing the structure down preparatory to moving it away from the premises. The house was built by Andrew Peterson, father of Carl Axel, a Holger Peterson, the land being purchased from Hiram Lamport on April 10, 1885. Andrew Peterson and Hemming Peterson, who were unrelated to each other, were among the earliest residents of Grayling. Andrew married Hemming's sister, Margrethe, who had accompanied her family here from Denmark when she was 16 years old. Margrethe was employed at the old Manistee House until she married. Hemming's son Hans Peterson remembers sitting in the window of the Andrew Peterson home and watching the former Commercial House burn down. It was located where the present Welsh Ford garage is now. The present Avalanche office was in back of the Commercial House, and received some charred timbers from that fire. The building was later moved to its present site on Michigan Ave.) The A. C. Gierke family purchased the Cedar St. house from the Andrew Peterson estate in 1934 when they came here from Toledo, Ohio. The Gierkes in turn sold it to the Einer Rasmussen family about fifteen years ago.

The property, when cleared of the house, will run straight through from Cedar to Norway streets and also will front on the alley. City of Grayling crews have been at work on the property in a preliminary grading project as the owner, Roy DeWitt of Roseomon, will allow the city to use the extensive piece of property for a municipal parking lot until a future time when other plans may be developed for it.

An Open Letter To Grayling And Crawford County

The success of St. Mary's Church "Open House" was a combination of many factors. The Protestant ministers and their congregations responded well to our invitations. We pay tribute to them. We are grateful to the Crawford Co. Avalanche for their fine stories on the "Open House", especially for the last well written news item including the picture of St. Mary's, on the success of the "Open House".

Bigotry, prejudice and hatred are based on ignorance. An "Open House" like ours has done much to clear away misconceptions about the Catholic Church.

We hope that in the near future, our Protestant brethren will hold an "Open House" so that we, in turn, can understand how they worship God.

Grayling and all of Crawford County are to be commended for the many wonderful spiritual assets which make for a strong and morally good community.

Mr. Perry Wells, chairman Rev. Fr. Joseph Sakowski, Pastor

Mrs. John Latuzek introduced Mrs. Harold Klein of Birmingham, Audubon member, who presented an interesting program on birds. Her interest in birds started 40 years ago she stated and good binoculars and a reliable bird book are important. A record was played featuring familiar bird songs.

Vikings Drop Season Grid Finale To Boyne City, 13-6

The Grayling Vikings, after controlling the final football game of the season Friday night under the lights at the Grayling Memorial Recreation Area, were nosed out 13-6 by the Boyne City Ramblers.

Grayling kicked off to the Ramblers to start the second half and held Boyne City and even stopped them for losses on the first three downs. The Ramblers decided on a desperate fourth down gamble to try for a first down and were stopped on their 16 yard line short of it. Things seemed to be going right for the green and white for a change, but a fumbled pitchout was picked up by a charging Boyne lineman and before anyone could stop him, he rambled 85 yards to score. The Ramblers ran in the point after touchdown and took the lead 7 to 6.

The game remained this way with Grayling still continuing to dominate play until only a minute and a half was left on the clock. The Vikings with the ball deep in their own territory decided to try for the elusive first down and were stopped. Boyne City's John Braun drove into the end zone with time just about out after a series of plays on an off tackle slant. The try for point was stopped and the game ended with Boyne City the victors 13 to 6.

NEW KELLOGG'S BRIDGE NEARS COMPLETION

Charles Morley Photo

With the setting of ten massive beams last Friday, the new Kellogg's Bridge crossing the North Branch of the AuSable River progressed rapidly towards completion. Each beam is 27 inches deep, 36 inches wide and 50 feet long and weighs 18.5 tons each. Ten of these beams comprise the deck of the bridge. These beams rest in four concrete concrete piers driven to the average depth of 40 feet. The new bridge is a single span of 50 feet and will have a 30 foot wide driving surface. It replaces the old twin span bridge which had only a 16 foot driving space for single lane traffic.

The new bridge was designed by the Crawford County Road Commission engineer, Bruce Carlson, who also is supervising its construction. The construction is being done by Mr. P. E. Mason, a bridge contractor from Sandusky, Michigan, (no relation to the television attorney) who holds the \$34,000 contract.

The bridge is being built under the Federal Aid Secondary Program of the Federal Bureau of Public Roads whereby 50% of the contract is paid by the Crawford County Road Commission and 50% by the Federal Government. The new bridge will be opened to traffic in advance of November 15th in plenty of time for deer season.

Cederberg Seeks Priority Over Red Wheat Shipments In Shortage Of Rail Cars

Warning of the further aggravation of an already critical transportation situation if railway freight cars are diverted to haul wheat for the Soviet Union to U. S. seaports, Congressman Elford A. Cederberg, of Michigan, today introduced a resolution in the House of Representatives expressing the sense of Congress that priority be given to domestic transportation needs.

Congressman Cederberg also sent a telegram to President Kennedy urging him to request the Interstate Commerce Commission to issue an order directing the railroads to conform to such priority.

Addressing the House of Representatives, Congressman Cederberg said: "I have just introduced a House Concurrent Resolution declaring, 'That it is the sense of Congress that the common carriers by railroad in the United States should give priority to the transportation requirements of domestic shippers and should not use their equipment and facilities for the movement of grain to be shipped to the Union of Soviet Socialist Republics or any other Soviet bloc country, unless all other domestic transportation needs have been met.'"

"The shortage of railroad equipment is already critical in many areas. To further aggravate this situation by diverting equipment to domestic needs to satisfy the shipment of grain and other commodities to the Soviet bloc, cannot in my opinion be justified under any circumstances. The failure to adequately serve our domestic needs first can have an adverse effect on our economy and result in serious commodity losses.

62% In Crawford Co. Born After World War I

(Special to the Avalanche)

NEW YORK, Oct. 26 - How young is the population of Crawford County, measured in terms of its contact with the major events of the last few decades?

How many of the local people were around during the first World War? During the prohibition period? When the stock market crashed in 1929? When World War II started?

Figures released by the Government reveal that no less than 62 percent of Crawford County's population was born after 1918, when World War I ended.

In 1920, prohibition went into effect, women got the right to vote in the United States and the League of Nations began. About 38 percent of the local population was on hand at that time.

The year 1927 was marked by Charles A. Lindbergh's solo flight across the Atlantic and by the appearance of the first talking movie, The Jazz Singer. Only 51 percent of the present population of the county had been born then.

The advent of the atomic age, in 1942, marked by the first nuclear chain reaction, can be remembered by no more than 61 percent locally, it is shown.

All the figures point to the fact that this is a comparatively young generation.

Principally, the preponderance of young people is attributed to the very sharp increase in birth rates following World War II.

The largest five-year segment of the population in the United States consists of those below age 5. There are about 21 million in that age bracket. The second largest group is from age 5 through 9. They total 20 million.

Taken as a whole, residents of Crawford County are found to be slightly older than their compatriots in other parts of the United States.

The medium age of local people is given as 30.6 years, which means that there are as many below that age as there are above it. In the rest of the United States, the medium age is 29.5 and, in the State of Michigan, 28.3.

The influx of younger people into positions of importance is typified by the fact that we have as our President a man who was only 10 years old when Lindbergh made his historic flight and who was 17 when Hitler became Fuehrer, in 1934.

For every man who ever fell in love with a Jeep—a new kind of family station wagon has been born. The 'Jeep' Wagoneer. It's the first station wagon ever built to offer the comfort, silence, speed and smoothness of a passenger car—plus the traction and safety of 4-wheel drive.

It's sheer pleasure to drive. Simple too. One lever puts you in 4-wheel drive. So at a second's notice you can shift into greater safety...from wheel-spinning in mud or snow...from skids on slick surfaces...from getting stuck or going out of control on the highway or off!

The Wagoneer really makes a demonstration worthwhile. It'll be your most exciting 30 minutes behind the wheel in 1963. By the way, 2-wheel drive models available, too. See your 'Jeep' dealer today.

"Self-Defeating Expedients"

A number of bills now before Congress would shorten the standard workweek of 40 hours. This has long been a goal of many leading unions. The argument is that it offers a solution to the vexing unemployment problem.

At the same time, under current proposals, pay for the shorter week would be as much as for the longer week now in general effect. This, say union spokesmen, would be necessary to maintain purchasing power.

The net result, obviously, would be to force up the prices charged for commodities and services. That always happens and must happen when wages outrun worker productivity. So, in a word, the net result would be price inflation, at a time when price stability is an urgent national need and goal.

Another result would be to impair the ability of U. S. industry to meet foreign competition — which becomes tougher and tougher, with its advantages of lower wages and other basic costs. So, in the long run, there is an excellent chance that a shorter workweek accompanied by higher hourly wage rates would increase, not decrease, unemployment. People would buy less of higher priced products.

President Kennedy, who is certainly no foe of labor, and who is as deeply concerned with the unemployment problem as anyone, has described proposals to arbitrarily reduce the workweek as "self-defeating expedients which can only restrict the economy, not expand it." That covers the case succinctly and accurately.

"Sound As A Dollar"

Economists, who have a strange language all their own, can make discussions of fiscal policy seem as dense as a fog in a coal mine.

But the problem can be simplified, and accurately. Life magazine does that in an editorial: "The greatest material asset the free world has is the U. S. economy. It is, by and large, in good shape at home. But it needs a tax overhaul to make it still more buoyant and vigorous, and its medium of exchange — that is, the dollar — needs the protection of fiscal probity. Given those two things, the economy should right the balance of payments problem and enable Kennedy to fulfill a pledge he made in a letter to David Rockefeller 'to make certain that the dollar remains as "sound as a dollar".'"

Nov. 7, 1940

Roosevelt, VanWagoner elected! The big upset among the county officers was the victory by James Post, Jr. over the veteran county treasurer Wm. Ferguson. The majority was only eight votes. Ferguson led Post in the county by nine votes until returns from Lovell township came in with a majority of 17 for Post, thus cutting down the Ferguson vote from the nine majority to eight defeat. The heavy vote by COC veterans of Camp AuSable no doubt gave Post the votes he needed for victory.

The game completed the first regular scheduled football season Grayling has sponsored in fourteen years. The new Grayling footballers can show two victories, one tie, against three defeats as an acceptable performance for the season of 1940 in a new sport. The Grayling squad consisted of ends, McDonnell, Melichar, Geigling, Anthony; tackles, Sorenson, LaChapelle, Hatfield, Perry, Palmer; guards, Gorman, Corwin, Kolka, Fairbotham; centers, Welsh, Burns; quarterbacks, Clark, Stevenson; halfbacks, Dunham, Rutkowski, R. Dr. Lowell J. Green Closes Office, Retires

Dr. Lowell J. Green, D. O., retired from active practice and closed down his offices in the Upstate Shopping Center in Grayling Wednesday of last week, Oct. 30. He plans to keep in touch with a few of his former patients, but after forty years of practicing Osteopathy plans to take things a bit easier.

Dr. Green established his practice in Grayling in February of 1939, coming here from Lansing, where he had been an active staff member of the McLaughlin Osteopathic hospital since its opening in 1941, where his specialty was electrocardiography.

On Saturday, October 26th, one of the finest Ritual teams in the state from the Pontiac Lodge, put on the enrollment ceremonies for two new members of our Lodge.

On Sunday, Oct. 27th, the Grayling Ritual team was in Bay City for an enrollment there.

The next enrollment here will be Sunday, Dec. 8th, at 2 p. m. All persons who are signed up, and haven't been enrolled, are urged to be at the local lodge. Any person interested in joining the Moose Lodge may contact any member, or stop at the Club for information and pick up an application. The December enrollment will be the last one for this year.

It has been decided that the first meeting of the month will be a social meeting, instead of the last meeting.

Bill Fitzgerald, the State Vice-President for this District, and several other members from this lodge attended the District meeting in Ludington on Sunday.

The club is proud to announce the sponsorship of a live stage show by an internationally famous person in the near future. Watch for dates and details.

All members are urged to attend the meeting on the 1st and 3rd Friday of each month. Remember it is your vote and opinion that make our Lodge a better Lodge.

NO NEED FOR A HEAVY FOOT!

When you first take the wheel of a new 1964 Cadillac, you're going to be amazed!

For this latest "car of cars" has attained a level of performance you have never before experienced. To be sure, there's greater smoothness and quiet. There is also increased agility and handling ease. And, above all, there's added power, acceleration and responsiveness. There is no need for a heavy foot in this dynamic car! Cadillac's new performance is the result of many advancements throughout the power train. The engine is new—and it's the most powerful in the car's history. The famous Hydra-Matic transmission has been redesigned to provide the most responsive operation of all time. And a new Turbo Hydra-Matic on some models assures true brilliance of performance.

All in all, Cadillac is more than a hundred years new. Its new styling is elegant as never before... with a divided grille that makes it unmistakable on any highway. Its interiors are unusually luxurious. And its new options include an exclusive Comfort Control* that lets you pre-set interior temperature exactly to your liking—and hold it season to season—while at the same time controlling humidity.
